Reliable connectivity for the services that matter most

Powering impact across Africa

Across Africa, essential service providers are doing critical work — often in areas where connectivity is limited, unreliable or non-existent.

Paratus Essential Access delivers high-performance, dependable connectivity to organisations that need it most — enabling you to operate efficiently, serve your communities and grow with confidence.

Who it's for

Designed for organisations delivering vital services:

- **Education** - Schools, training centres, digital learning hubs
- **Healthcare** - Clinics, hospitals, mobile health units
- **Community Services** - NGOs, community centers, outreach programmes
- **Emergency Services** - Police, disaster response, public safety
- **Community Agriculture** - Non-profit agricultural units

If you deliver critical public services, we enable your impact.

The trusted Impact **enabler**
for essential services in Africa
